It's not that, it's that B. Braun is not listed on the 23 high risk facilities on the website. So, there's no map to look at for the public.

Hi Alice, We still have the isopleth map in the slide deck, so this will need to be removed. I can talk with Taylor about this. Can you remind as to why we are not including the isopleth map for B. Braun? Thanks, Karen

Karen: I just realized that Slide 16 for B. Braun does not work...they never made an isopleth map for it. What do you want to do...we can write just a paragraph on the installation of controls...when it occurred, when the stack test was done, the results of the stack test...Do you want to check with Taylor?

Subject: REVIEW: Final R3 EtO Facilities Scripts

Hi Alice,

All of the R3 EtO Facilities Scripts are contained in the ARD Teams site below – for your final review.

☐ [R3 EtO Facilities Scripts](#)

Once your review is complete, I will send to Cristina/Andrea for their review (then Terri and Gail).

(I know that ARD MGRs will be busy with the State Air Directors' meeting and understand if you, Cristina, Andrea cannot get to this in the next couple of days.)

Thanks,
Karen
